## Volunteering

---

### TUM Speakers Series

since 10/2018

At TUM Speakers Series, I organize guest lectures with fellow TUM students. Recent speakers include Eric Schmidt, Kofi Annan and Bill Gates.

### Tradity

11/2017 - 3/2018

As Regional Manager, I organized the trading competition Tradity at high schools in Essen and introduced seniors to the stock market.

### Hour of Code

12/2017

Together with Marvin von Hagen I organized an code.org-listed Hour of Code at my high school in which we introduced 75 primary schoolers into coding.

## Interests & Activities

---

In my spare time I enjoy playing the piano and being on the tennis court as well as taking part in non-competitive hackathons like Jugend hackt and attending university academies in the field of Computer Science and Entrepreneurship, for example at WHU or Hasso Plattner Institute.

Apart from that I try to broaden my mind at many smaller events, including TEDx, CDTM Inspire&Dine or Startup Safari Munich.
